Guide to Specialized Instructional Support Personnel (SISP) Rubric

Rubrics – defined in the regulations as “scoring tool[s] that describe characteristics of practice or artifacts at different levels of performance” ([603 CMR 35.02](#)) – are a critical component of the Massachusetts educator evaluation framework and are required for every educator. Rubrics are designed to help educators and evaluators (1) develop a consistent, shared understanding of what proficient performance looks like in practice, (2) develop a common terminology and structure to organize evidence, and (3) make informed professional judgments about formative and summative performance ratings on each Standard and overall. This appendix contains the ESE Model “SISP” Rubric.

Structure of the Specialized Instructional Support Personnel (SISP) Rubric

- **Standards:** Standards are the broad categories of knowledge, skills, and performance of effective practice detailed in the regulations. There are four Standards for teachers: *Curriculum, Planning, and Assessment*; *Teaching All Students*; *Family and Community Engagement*; and *Professional Culture*.
- **Indicators:** Indicators, also detailed in the regulations, describe specific knowledge, skills, and performance for each Standard. For example, there are three Indicators in Standard I of the SISP rubric: *Curriculum and Planning*; *Assessment*; and *Analysis*.
- **Elements:** The elements are more specific descriptions of actions and behaviors related to each Indicator. The elements further break down the Indicators into more specific aspects of educator practice and provide an opportunity for evaluators to offer detailed feedback that serves as a roadmap for improvement.
- **Descriptors:** Performance descriptors are observable and measurable statements of educator actions and behaviors aligned to each element and serve as the basis for identifying the level of teaching or administrative performance in one of four categories: *Unsatisfactory*, *Needs Improvement*, *Proficient*, or *Exemplary*.

Use of the Specialized Instructional Support Personnel (SISP) Rubric

This rubric describes practice that is common across educators in professional support roles such as school counselors, school psychologists, school nurses, and others defined in the recognition clause of the appropriate collective bargaining agreement. It is intended to be used throughout the 5 step evaluation cycle for educators who provide direct services such as education, therapy, counseling, assessment, and diagnosis to a caseload of students, as well as educators who may provide indirect support to students through consultation to and collaboration with teachers, administrators, and other colleagues.

The roles and responsibilities of educators to whom this rubric will be applied will vary. ESE encourages educators and evaluators to use the rubric strategically by discussing and agreeing upon certain Indicators and Elements that should be high priorities according to that educator’s role and responsibilities as well as his/her professional practice and student learning needs. There are a variety of ways to emphasize these components throughout the evaluation cycle. For example, high priority Indicators and/or elements can be analyzed in greater depth during self-assessment, targeted during goal setting, a focus for more comprehensive evidence collection, or all of the above. However, the expectation is that by the end of the evaluation cycle, educators and evaluators have gathered and shared a reasonable amount of evidence on every Indicator to support a rating for each Standard.
